Bon dia,

Us re-envio la informació que ens han fet arribar des de la direcció general de pressupostos, **que pot ajudar molt a respondre a les preguntes de l'Ana Stanic** (excepte la part d'infraestructures).

Si poguessiu fer-hi una ullada? com diu l'Elsa, les nostres agendes estan molt plenes i si agrairiem molt una ajuda en processar aquesta informació.

Des del VEH podem després integrar les respostes i afegir el que calgui.

Mireu primer el document de "respostes" que va remeten a la documentació adjunta.

Moltes gràcies i salutacions,

Natàlia

Tema: petició urgent
Importància: Alta

Bon dia Núria, Oriol i Germà,

Ens podríeu donar un cop de mà responent i aportant la informació a sota.

És tot estàndard però cal fer-ho bé i nosaltres tenim les agendes molt malament aquests dies.

Caldria tenir-ho el més aviat possible. **Si és avui, millor que demà. En anglès directament.**

Copio a la Natàlia Mas per si hi ha parts que ella ja té o teniu cap pregunta al Departament d'Economia.

Mil gràcies per endavant.

Lluís i Elsa

All of information needs to be cited - meaning referenced to a website or article or publically available document including of Generalitat, international statistics etc

A. Mossos

1. date of the transfer of competence and name of agreement. Ideally wording of doc. Re transfer and a link to citation of the information so it can be cited.
2. reference to document shows payment for mossos is introduced in financing model in 2009
3. evidence security board has not met since 2009
4. increase in numbers of mossos

5. citation for the figure of Euro 619 million

Question: Are paid interest for the deficit? What legal recourse do you have if Spain continues not to pay? Constitutional Court?

B. budget adjustments in EAS

I understand that Statute of Autonomy contains provisions re. contributions to state budget which have not been complied with by Spanish state? Is that right? Can you refer me to relevant article?

C. Spanish Fiscal deficit Catalonia by Spain of 10 billion in 2013

1. Can I have statement from the Spanish Minister and relevant Spanish state document.
2. What are your calculations for same year and for total up to day? Is the deficit growing and why?
3. if there is a deficit growing how is it that Catalonia has become more indebted to the Spanish state over the same time?
4. is it correct that investments made to Madrid infrastructure and Prada Museum don't count as investments in Madrid area but as state investments whereas investments into Catalan roads and museums in Barcelona are treated as Catalan investments for purposes of apportionment of investments. [I need this to be carefully explained to me as it sounds complex. Perhaps best to meet the expert after data is provided to go over it.]

D. Railway, road and airport underinvestment/discrimination

I understand most of the roads in Catalan are paid motorways rest of Spain they are free.
Most roads go to Madrid [need geographical diagrams re. development, figures on use etc].
Same applies to railways
Has the World Bank, or EU looked at any of this as part of their studies?

E. Anything else you can think of which is relevant.

Thank you in advance

Ana Stanič
